

Presentation & Colorimetry

Tectónica's h2o marble is the most extraordinary representation of an exemplary stone – where nature and brightness meet design.

This variant improves with light. A crystalline texture, with clean details. The h2o's white-on-white marble is essential for designs simulating the water flow.

Processing work

H2o is obtained through wear, brought to the finest grain. This creates a 'mirror' effect, reflecting the piece a whole sensation of movement.

The cut in the stone can generate a vein of different ocean tones, from turquoise waters to deep seas.

Technical Characteristics

Parameter	Declared Value*	Testing Code*
Apparent density	2700 g/cm ³	UNE-EN 1936
Porosity per volume	0.3%	UNE-EN 1936
Reaction to fire	Class A1	UNE-EN 13501
Compressive strenght	70 MPa 45 MPa 12 MPa	UNE-EN 1926
Bending strenght	10,8 MPa 6,9 MPa 2,0 MPa	UNE-EN 12372
Abrasion resistance	24,3 mm	UNE-EN 14157
Frost resistance	11%	UNE-EN 12371
Resistance to thermal shock	-0.30%	UNE-EN 14066
Breaking load for anchors	1950 MPa 1650 MPa 147 MPa	UNE-EN 13364
Open porosity	0.3%	UNE-EN 1936
Water absorption	0.2%	UNE-EN 13755

*All declared values and testing codes have been certified in a specific laboratory. Official documents to be provided, if necessary.

Reccommendations

Low porosity and high light reflection admits the glamorization of the pieces with water.

1 cm cuts create a shiny effect on the pieces with the help of LEDs or natural solar light, beautifying the finishes.

Light Capacity

H2o's variant is a 70% translucid.

Specifications

Variant possible to be offered in blocks*, slabs and tiles. The 2 latter includes the specific finish.

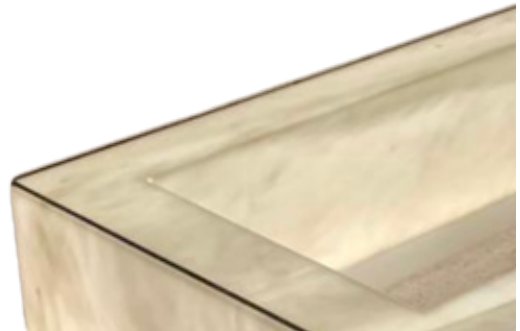

Tailor-made specifications are also accepted for an extra cost, depending on the project requirements.

*Each block may be subject to a different vein.

Finishes

This variant better fits with small and classic products – i.e. coffee tables or washbasins.

Polished sheet finishes must be assembled in floors or dainty surfaces only if cut in 2 cms or more.

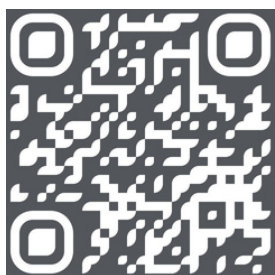

Prices

Price varies per square meter* depending on the type of vein and finish.

If you wish to place a specific order, which requires another type of cut or a very specific vein, please formulate your enquiry to sales@tectonica.design in the 'get in touch' button on our website.

*Main cuts in 1 sqm for both slabs and sheets.
